

FINAL RESULTS LIST

Artificial Intelligence Developer and Data Analyst English Edition (2026-2028)

Below is the final selection results list for the **Artificial Intelligence Developer and Data Analyst** programme (English Edition 2026-2028). Candidates are categorized by their current admission status:

- **Pre-Enrolled Candidates** (listed in chronological order of completed pre-enrollment);
- **Reserve List Candidates** (listed in order of expressed interest in enrollment);
- **Non-Eligible Candidates**

ITS Digital Academy has approved an increase in the maximum number of available places, setting the capacity at 28 students.

Please note that candidates on the reserve (waiting) list may be contacted in sequential order should any allocated place become available (due to the possible withdrawal of a candidate who has already completed their pre-enrollment), strictly following the order of the waiting list.

Classes for this English-taught programme will commence in the second half of October 2026 at our campus location: **Via Risorgimento, 29 – Noventa Padovana (PD)**. Further details regarding class schedule will be communicated by the beginning of September.

Pre-enrolled candidates will receive an email with instructions on how to complete the enrollment procedure and pay the remaining **€800 tuition fee** by **20 September**, unless an extension is required due to delays related to obtaining an Italian student visa.

We suggest that all pre-enrolled candidates and candidates on the waiting list regularly check their registered email inbox for further administrative updates and details regarding course orientation.

Noventa Padovana,
7th August 2026
